

SPRAY DECK SYSTEMS

DECORATIVE CONCRETE SYSTEMS

- One-Step Spray Deck
- Southcrete Color Guard
- Southcrete Spray Deck

An increasingly popular alternative to covering concrete, is to make the surface both decorative and functional. Spray Deck System transforms typical dreary concrete surfaces into dazzling designs in just a few short hours.

Spray Deck System combined with unique pattern-stamping templates can permanently imprint newly placed concrete with authentic textures to match architectural features or blend into the landscape. The finish can last the lifetime of the concrete and is durable, sanitary and easy to maintain.

Besides adding years of life to concrete, Spray Deck is slip resistant and comfortable under the foot. The resulting floor finish is a combination of beauty and creativity that's durable and practical.

Maintenance is easy on such a beautiful surface. All you need is a garden hose and a few common household cleaners to maintain a like-new appearance of Spray Deck. Indoor or outdoor, horizontal or vertical, single color or a patterned design, Spray Deck will revitalize and enhance concrete surfaces.
